

About HealthPlus Co.

Our Story

HealPlus Co. was founded in 2010 by Dr. Samantha Ruiz to bridge the growing care gap in rural America. Our goal was simple yet ambitious: bring compassionate, clinically rigorous care to people wherever they are—no matter how remote.

- **2012:** First virtual cardiology consult completed using HealthPlus Co.'s app
- **2016:** Named Top 10 Most Innovative Digital Health Startups (HealthTech Journal)
- **2020:** Surpassed 1 million virtual visits during COVID-19 pandemic response
- **2024:** Launched HealthPlus Co. Mobile+ for low-connectivity regions

Our care model has empowered *hundreds of thousands* of patients to take charge of their health. And we're just getting started. [Explore how telemedicine is shaping the future of care.](#)

Our Leadership Team

Dr. Samantha Ruiz – CEO & Founder

"People before platforms." With a background in emergency medicine and public health, Samantha founded HealthPlus Co. with a mission to close care gaps through digital innovation.

Javier Nguyen – CTO

Javier leads our technology team and pioneered the HealthPlus Co. API suite, now used by over 300 clinics nationwide. He believes telehealth should be *simple, secure, and scalable*.

Linda Park – VP of Clinical Ops

With 15+ years in nursing and care coordination, Linda ensures our virtual services match the quality of in-person care—one patient at a time.
